

SHREYASH MOKANI

AI & Data Science | Business Analytics
Mumbai, India 400067 | shreyashrules@gmail.com | +91 79770 43026

PROFESSIONAL SUMMARY

Final-year B.Tech student in Artificial Intelligence & Data Science with academic experience in machine learning, predictive modelling, and building AI-powered platforms. Skilled in data analysis and Python. Looking to apply AI and analytical skills in a fintech environment where data directly drives financial decisions.

EDUCATION

Bachelor of Technology (B.Tech) — Artificial Intelligence & Data Science <i>Shah & Anchor Kutchhi Engineering College, Mumbai , CGPA : 7.2</i>	2022 – 2026
Higher Secondary Certificate (HSC) — Science <i>Nirmala Memorial Foundation College, Mumbai</i>	2022
Secondary School Certificate (SSC) <i>Oxford Public School, Mumbai</i>	2020

PROJECTS

Engunity AI — AI-Powered Analytics & Developer Platform - Developed a prototype AI platform enabling users to upload and edit datasets, query data via an integrated AI chat assistant, and write/debug code using an AI-powered code editor. - Integrated LLM-based assistance supporting end-to-end workflows: data ingestion, AI-driven analysis, code generation, and export.	2025 – Present
Employee Performance Prediction System - Developed an ML classification model evaluating employee efficiency using performance metrics, engagement scores, and productivity trends. - Performed feature engineering and analysis to identify key performance drivers for strategic HR decisions.	2024
Stock Price Prediction Model Trained a predictive ML model using historical price data and market indicators to forecast stock trends and simulate portfolio optimisation decisions.	2023

SKILLS

Programming: Python (Pandas, NumPy, Scikit-learn, Matplotlib)
Data & Analytics: Microsoft Excel (Pivot Tables, VLOOKUP, Charts), Power BI (Learning), Predictive Modeling, Feature Engineering
Tools & Workflow: PowerPoint, Agile Methodologies (Scrum & Kanban)
